Commissioner

### **GENERAL PERMIT FOR REPAIR OF DAMAGES RESULTING FROM HURRICANE IRENE GP-0-11-007**

#### **INSTRUCTIONS TO APPLICANTS**

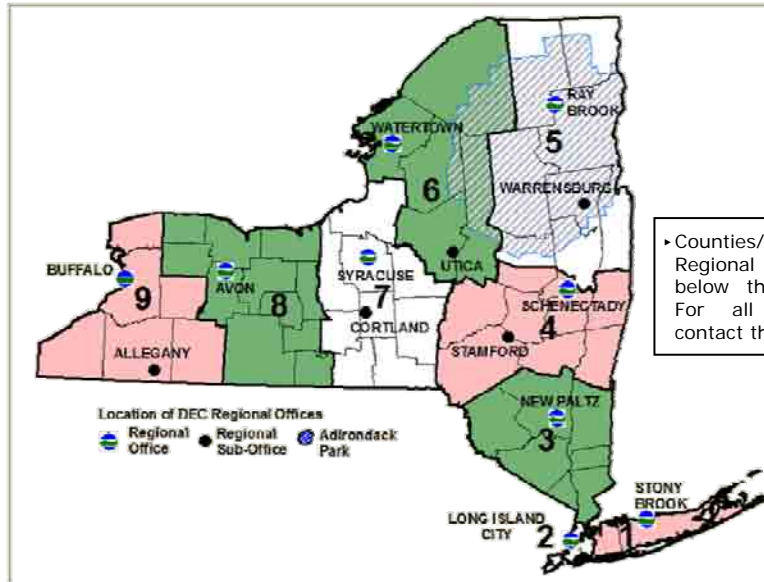

This application is to request authorization under the DEC General Permit for non-emergency cleanup and repair work in DEC Regions 3, 4, 5, and 6 necessitated by the Hurricane Irene flooding of August 28-29, 2011.

This General Permit authorizes specific types of repair and restorative work while eliminating the usual application procedures and public notification requirements.

To obtain the required authorization under this General Permit:

1. Read the General Permit to ensure that you understand all terms and conditions.
2. Determine whether or not the work you propose to do is within the scope of the General Permit. (Refer to Description of Authorized Activities, Type of Projects, Nos. 1, 2, 3, and 4). If it is not, contact the Regional Permit Administrator to apply for an individual permit. If it is, proceed with Step 3 below.
3. Fill out the Application for Emergency Authorization. Make sure all asterisk (\*) entries are complete and legible. Provide drawings, photos (if available), and a location map. Read the certification and sign and date the application.
4. Give the completed application to the DEC field representative (Habitat Biologist or Environmental Analyst), or mail/email them to the Regional Permit Administrator (see next page for Agency Contact Information). If the project is approved, the authorized DEC representative will then countersign one copy of the General Permit and hand it to you or mail it.
5. Ensure that those doing the actual work understand and comply with all terms and conditions of the General Permit.
6. Contact the Regional Permit Administrator if you have questions or encounter unforeseen problems during the course of the work.
